

Multnomah Whiskey Library

Visiting in 2020

During the ongoing health crisis, service at Multnomah Whiskey Library has been tailored to provide the safest indoor dining experience possible.

We continue to invest in and upgrade safety equipment and sanitization procedures as the safety of our members, guests and team are our first priority. We know that visiting the Library will not be exactly the same during this time, but we are doing our utmost to preserve the spirit of hospitality, education and exploration that defines the Library experience.

It is our goal to become the safest indoor space to spend time, next to your own living room.

Our First Priority is Safety

If you have any questions about visiting the Library, please email us at membership@mwlpdx.com

Some of the Steps We're Taking

- **Nightly Sanitization.** In addition to pre-service cleaning and a new stringent sanitizing procedure between parties, we have contracted a company to diffuse a sanitizing mist in all of our spaces every night after service. This hydrogen peroxide-based treatment is approved by the CDC and is completely safe while effectively sanitizing every surface.
- **Advanced Air Filtration System.** For an added layer of protection, we have chosen an air filtration system that draws air up and out and uses UV light to reduce microorganisms in the air - including viruses and bacteria.
- **Service Procedures.** MWL has provided the staff with top-rated non-valve masks that are worn at all times in the building. We follow an aggressive hand washing routine, and keep our distance while serving. All door

handles, rails and high touch surfaces are disinfected hourly and we thoroughly sanitize all sections between parties. We use a timed UV box to disinfect pens, masks and service equipment. Hand Sanitizer is available for guest use at all entrances and on every table.

- We're lucky to have such a large room to arrange our tables. We've reorganized seating to give every party extra space. Plus, our extra high ceilings and powerful HVAC air filtration system helps ensure there's plenty of fresh air in the room.

- **Free Valet Service in August & September.** Members and guests are invited to use the Hyatt Centric valet parking services next door, and MWL will pick up the tab.
- All of our menus, including the spirits list, are available online. Check them out once you are here, or peruse the list before you come. Our physical menus will not be available, but our amazing bartenders and bar backs will be on hand should you like to talk shop - at a distance of course. You can also pre-order food and flights if you prefer to expedite service.

Private Dining

Get Behind the Rails with a Private Dinner or Custom Education. The Green Room, Library and Tasting Room are all available for your private party. Email questions to events@mwlpdx.com

MWL at Home

Bring the Library to your backyard. We have everything you need to make our signature dishes at home including our bone-in ribeye, burgers and mac and cheese. Add a bottle of wine you are all set for an epic backyard BBQ. If this all still sounds like too much work, our dinner menu is also available for take out.

For the home bartenders, we have house made Old Fashioned and Manhattan cocktail syrups and Demerara and cane simple syrups to jump start your evening. Plus, we've teamed up with Bull in China to create a custom set of professional bar tools to make sure you have everything you need to stir or shake your way to your next great cocktail.
